PONTET-CANET

GRAND CRU CLASSÉ EN 1855

2005

The 2005 vintage will be remembered as the year of the great drought. Flowering took place at the end of May.

The monitoring of the potential degrees became simply anecdotal as the sugar concentrations were worthy to be included in the history of Bordeaux winemaking archives. However the musts were endowed with very good levels of acidity despite the high degrees of alcohol.

Harvest began on the 26th of September for the Merlots, with just one team of pickers, allowing the remaining grapes to reach the perfect level of ripeness across the different terroirs.

We began the Cabernets on the 3rd of October with 160 more pickers finishing on the 10th of October with general optimism.

The new small-sized concrete vats were a very valuable help in our even more ambitious selection policy.

The chief characteristic of the 2005 vintage will certainly be the combination of "legendary tannins – high degree in alcohol – good acidity". For this reason, there have been very few Bordeaux vintages with these characteristics over recent decades, or even throughout the 20th century. Vintages worthy of comparison are rare. 1945 would appear to be one that comes to mind.

Tasting _____

Very intense colour.

Very intense nose, marked by notes of cherry, blackberry and redcurrant with traces of vanilla, liquorice and cedar.

The attack is full to the palate. The tannins of great smoothness reveal a fine elegance.

The finish, with no trace of aggressiveness, is marked by a good length.

Facts _____

Harvest: from September 26th to October 10th

Grape varieties: 70% Cabernet Sauvignon - 25% Merlot

3% Cabernet Franc - 2% Petit Verdot

Alcohol: 13°
